"Injustice anywhere is  
a threat to justice  
everywhere."

This applies to our society today because when people deny justice it becomes a domino effect. Injustice effects everyone not just one person. Instead, we should encourage the domino effect of kindness.

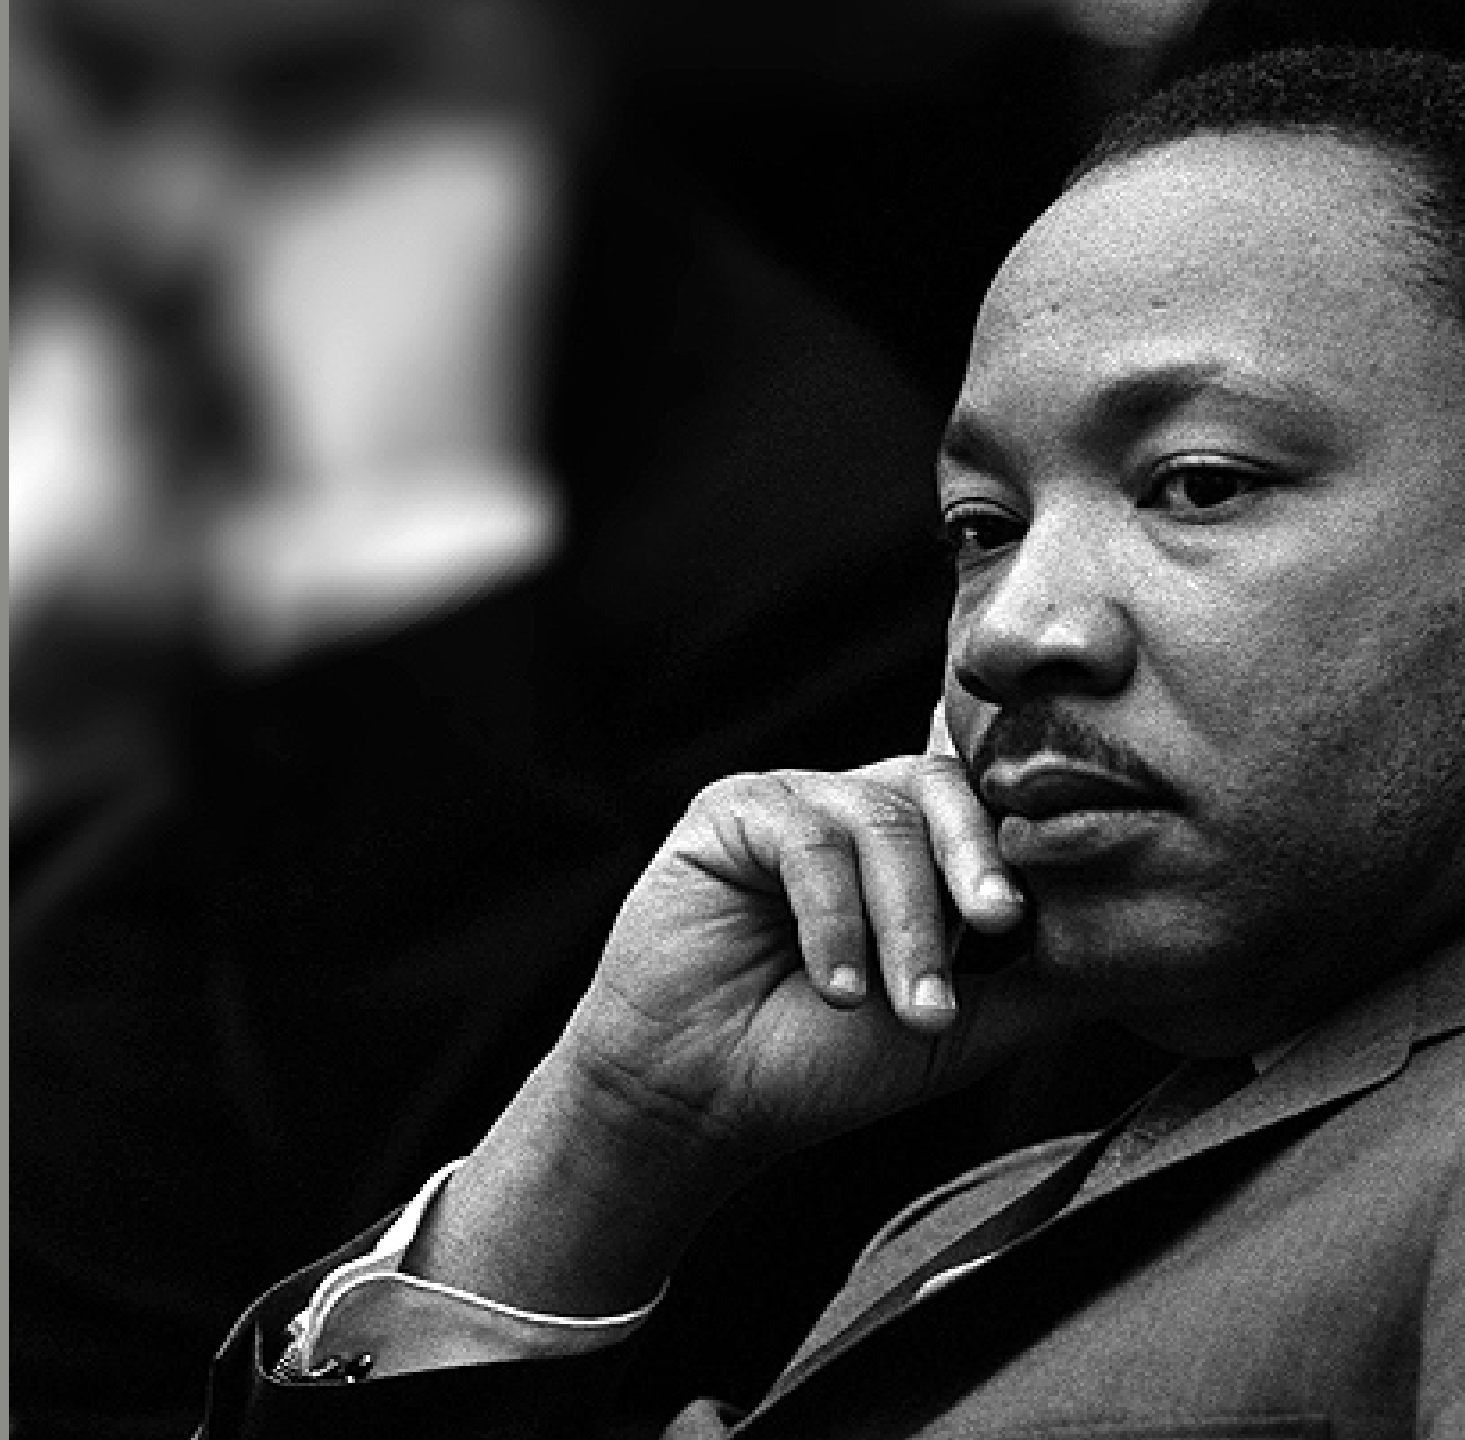

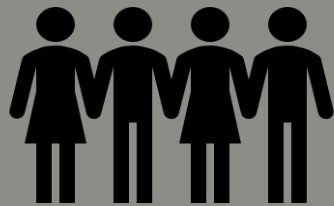

## "Whatever affects one directly affects all indirectly"

This statement means whatever affects one person will affect all. It's like when someone is sick a coughs on another person, they get sick and then it goes on. Or another example, when someone isn't nice to another person then that person is in a bad mood and then puts another person in a bad mood and so on. Once again, a domino effect.

"Anyone who lives  
inside  
United States  
can never be  
considered  
an outsider."

Anyone who lives in the United States can never be judged by their skin color, religion, or their style. The United States is a free country and anyone who lives here should be accepted and will never be considered and outsider.

# I Have A Dream

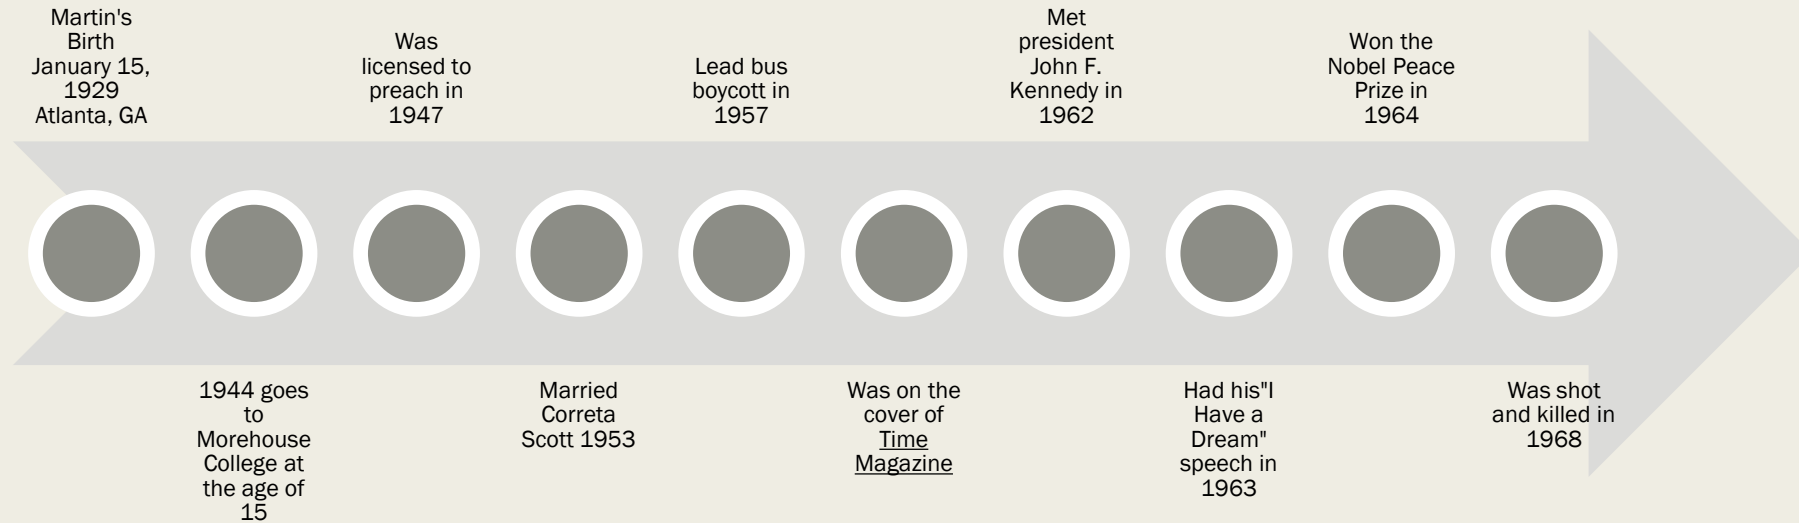

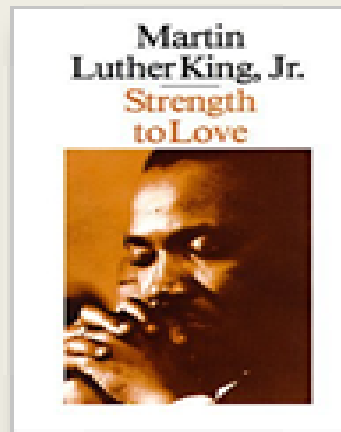

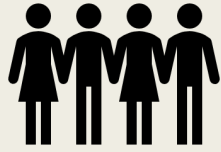

Martin Luther King Jr. said his famous "I have a dream" speech. He stated that one day Americans won't judge people by their skin color. That one-day America will accept people who are different. We can all change the world but it all depends on what you're going to change it.

A close-up photograph of a hand with fingers pressed together in a prayer-like gesture. The hand is the central focus, with a soft, out-of-focus background.

# Martin Luther King Jr's. Life

We must learn  
to live together  
as brothers or  
perish together  
as fools.

"Our lives begin to end the day we  
become silent about something that  
matters."
